Fixed Index Annuity

Every retirement is different, with different financial goals and needs. Still, many of today's retirees' objectives are the same — asset protection, growth opportunities and flexibility.

Fixed index annuities offer benefits that help millions reach their retirement goals through guaranteed principal protection, tax-deferred growth and opportunities for asset accumulation.

Understanding Fixed Index Annuities

What is a Fixed Index Annuity?

A fixed index annuity is a contract backed by the financial strength and claims paying ability of the issuing company. This guarantees contract owners a retirement vehicle designed to protect assets while allowing for growth opportunities. It does this through a combination of powerful benefits:

- **Principal Protection**
- **Guaranteed Income**
- **Tax-Deferred Growth Potential**
- **A Level of Liquidity**
- **May Avoid Probate**

How a Fixed Index Annuity Works

The retirement product is purchased with an insurance provider that, in turn, guarantees principal protection, tax-deferred growth potential on assets and a reliable income stream. Throughout the course of the contract, the fixed index annuity can earn additional interest credits based each year, in part, on index increases.

As an insurance product, the fixed index annuity is not directly tied to any index. So, there are none of the exposure risks associated with direct stock or share ownership. The annuity cannot lose money due to index volatility and the interest credited will never be less than zero.

Annuity Benefits Working for Your Retirement

A fixed index annuity offers a powerful combination of benefits that help protect against many of today's common retirement concerns.

| | 5 Common Retirement Concerns | | | | |
|------------------------------|---|--|--|---|--|
| |  Outliving Income |  Market Volatility |  Tax Exposure |  Level of Liquidity |  Legacy Planning |
| Fixed Index Annuity Benefits | Secures guaranteed income that can be turned into lifelong income payments. | Protect principal from downturns, never lose money due to index volatility. | Money grows tax-deferred, allowing for faster growth over-time, until money is withdrawn. | Up to 10% free withdrawals annually, plus partial withdrawal options and lifetime income flexibility. | Protect money and loved ones from the time-consuming and expensive probate process. |

Principal Protection: Premium payments are protected, and each year any interest credited to the contract is locked in and cannot be lost due to index volatility.

Guaranteed Income: Flexible payout options available, including lifelong income payments.

Tax-Deferred Growth Potential: Earn interest on money without paying taxes on it until any distribution occurs. It enables faster growth by allowing credited interest to compound over time.*

A Level of Liquidity: Each contract defines various opportunities to withdraw funds, such as Free Withdrawals, Partial Withdrawals, and lifetime income options. (Subject to applicable Surrender Charges.)

May Avoid Probate: If applicable, properly named beneficiaries receive any remaining value in the contract while avoiding the expense and time spent in probate.

*Assumes contract is individually owned.

AssetShield

AssetShield is a fixed index annuity designed to help protect hard-earned dollars from index fluctuations while offering interest growth opportunities based on increases in an index.

Premium Allocations

The initial premium payment can be allocated, in any combination, to either the fixed interest or any of the index strategies. Payments received after the initial premium automatically go into the fixed interest strategy. Contract Values may be reallocated on the contract anniversary between strategies subject to these minimums:

- The minimum allocation for each value is \$1,000.
- The minimum transfer to select a new value is 10% of the Contract Value.

For the 2-year point to point, Contract Values can be reallocated at the end of a two-year term.

Performance Rate Rider (PRR)

More options for magnified growth potential. In exchange for a fee, this rider provides the opportunity to increase the cap, participation rate or replacement rate on elected index-linked crediting strategies. The rider fee is locked-in for the surrender charge schedule and deducted on the last day of each term.

Market Value Adjustment (MVA)

This product contains a Market Value Adjustment (MVA) Rider. An MVA may increase or decrease the amount of a withdrawal in excess of the Free Withdrawal amount or the Surrender Value. The MVA does not apply to Free Withdrawals, any Death Benefit, the MGSV, or any distributions occurring after the Surrender Charge Period has ended. In general, as the MVA Index increases, Cash Surrender Values decrease. As the MVA Index decreases, Cash Surrender Values increase.

The Index Parties have no obligation to, and will not, take the needs of American Equity or any annuitant into consideration in determining, composing or calculating the Index. The selection of the Index as a crediting option under a Fixed Indexed Annuity does not obligate American Equity or Société Générale to invest annuity payments in the components of the Index.

THE INDEX PARTIES MAKE NO REPRESENTATION OR WARRANTY WHATSOEVER, WHETHER EXPRESS OR IMPLIED, AND HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES (INCLUDING, WITHOUT LIMITATION, THOSE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE), WITH RESPECT TO THE INDEX OR ANY DATA INCLUDED THEREIN OR RELATING THERETO, AND IN PARTICULAR DISCLAIM ANY GUARANTEE OR WARRANTY EITHER AS TO THE QUALITY, ACCURACY, TIMELINESS AND/OR COMPLETENESS OF THE INDEX OR ANY DATA INCLUDED THEREIN, THE RESULTS OBTAINED FROM THE USE OF THE INDEX AND/OR THE CALCULATION OR COMPOSITION OF THE INDEX, OR CALCULATIONS MADE WITH RESPECT TO ANY FIXED INDEXED ANNUITY AT ANY PARTICULAR TIME ON ANY PARTICULAR DATE OR OTHERWISE. NO INDEX PARTY SHALL HAVE ANY LIABILITY TO ANY PARTY FOR ANY ACT OR FAILURE TO ACT BY THE INDEX PARTIES IN CONNECTION WITH THE DETERMINATION, ADJUSTMENT OR MAINTENANCE OF THE INDEX. WITHOUT LIMITING THE FOREGOING, IN NO EVENT SHALL AN INDEX PARTY HAVE ANY LIABILITY FOR ANY DIRECT DAMAGES, LOST PROFITS OR SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No Index Party is a fiduciary or agent of any purchaser, seller or holder of a Fixed Indexed Annuity. None of Société Générale, S&P, or any third party licensor shall have any liability with respect to the Fixed Indexed Annuity in which an interest crediting option is based is on the Index, nor for any loss relating to the Fixed Indexed Annuity, whether arising directly or indirectly from the use of the Index, its methodology, any Société Générale Mark or otherwise. Obligations to make payments under the Fixed Indexed Annuities are solely the obligation of American Equity.

In calculating the performance of the Index, Société Générale deducts a maintenance fee of 0.50% per annum on the level of the Index, and fixed transaction and replication costs, each calculated and deducted on a daily basis. The transaction and replication costs cover, among other things, rebalancing and replication costs. The total amount of transaction and replication costs is not predictable and will depend on a number of factors, including the leverage of the Index, which may be as high as 200%, the performance of the indexes underlying the Index, market conditions and the changes in the market states, among other factors. The transaction and replication costs, which are increased by the Index's leverage, and the maintenance fee will reduce the potential positive change in the Index and increase the potential negative change in the Index. While the volatility control applied by the Index may result in less fluctuation in rates of return as compared to indices without volatility controls, it may also reduce the overall rate of return as compared to products not subject to volatility controls.
