Fixed Annuity

Every retirement is different, each with its own financial goals and unique needs. But, many of today's retirement objectives are the same — a reliable income source and asset protection.

That is why many Americans are turning to fixed annuities. These products have helped millions of people reach their retirement goals with benefits like guaranteed income and principal protection.

Understanding Fixed Annuities

What is a fixed annuity?

A fixed annuity is a contract backed by the financial strength and claims-paying ability of the issuing company. This guarantees contract owners a retirement vehicle designed to protect assets while allowing for growth opportunities. It does this through a combination of powerful benefits:

- **Guaranteed Income**
- **Principal Protection**
- **Tax-Deferred Growth**
- **Liquidity**
- **May Avoid Probate**

How a fixed annuity works

This long-term retirement product is purchased with an insurance provider that, in turn, guarantees principal protection, tax-deferred growth on assets and a reliable income stream. Throughout the course of the contract, the fixed annuity earns additional interest credits based on an established rate.

Guaranteed Income: Flexible payout options available, including lifelong paychecks.

Principal Protection: Fixed annuities are a safe-money alternative, with guaranteed interest and guaranteed income backed by the financial strength of American Equity.

Tax-Deferred Growth: Earn interest on money without paying taxes on it until making a withdrawal, or distribution begins. It enables growth faster by allowing credited interest to compound over time.

Liquidity: Each contract defines various opportunities to withdraw funds, such as Free Withdrawals, Partial Withdrawals, qualified care⁴ and lifetime income options. (Subject to applicable Surrender Charges.)

May Avoid Probate: If applicable, beneficiaries receive any remaining value in the contract while avoiding the expense and time spent in probate.

RateShield 7

RateShield 7 is a fixed annuity designed to help generate a guaranteed income source through an established rate while protecting hard-earned dollars.

Surrender Values and Charges

The annuity's Surrender Value will never be less than 87.5% of the premium received, less any withdrawals, accumulated at the minimum guaranteed interest rate. If a Partial Withdrawal or Surrender is taken during the Withdrawal and Surrender Charge period, a deduction will be taken out according to the Withdrawal and Surrender Charge schedule.

Market Value Adjustment (MVA)*

This product offers an optional Market Value Adjustment (MVA) Rider. An MVA may increase or decrease the amount of a withdrawal in excess of the free withdrawal amount or the Surrender Value. The MVA does not apply to free withdrawals, any death benefit, the MGSV, or any distributions occurring after the Surrender Charge period has ended. In general, as the MVA Index⁵ increases, Cash Surrender Values decrease. As the MVA Index decreases, Cash Surrender Values increase. Interest Rates may be higher for contracts with an MVA Rider.

In the event of death, the beneficiary receives the entire Contract Value.
